Combin Fatigue & Exhaustion Tissue Salt (Tablets)

Read all of this leaflet carefully before you start taking Combin Fatigue & Exhaustion Tissue Salt

Combin Fatigue & Exhaustion Tissue Salt is available without a doctor's prescription for you to treat a mild condition. Nevertheless you still need to use Combin Fatigue & Exhaustion Tissue Salt carefully to get the best results from it.

- Keep this leaflet. You may need to read it again.
- Do not share Combin Fatigue & Exhaustion Tissue Salt with any other person.
- Ask your pharmacist or healthcare practitioner if you need more information or advice.
- You must see a healthcare practitioner if your symptoms worsen or do not improve.

1. WHAT COMBIN FATIGUE & EXHAUSTION TISSUE SALT CONTAINS

The active ingredient in Combin Fatigue & Exhaustion Tissue Salt is *Calcium phosphoricum D6, Ferrum phosphoricum D6, Kalium phosphoricum D6, Magnesium phosphoricum D6, Natrium muridatum D6, Natrium sulphuricum D6*. The other ingredients are acacia gum, copovidone, crospovidone, lactose monohydrate, magnesium stearate, povidone. Contains sugar (lactose 240 mg per tablet).

2. WHAT COMBIN FATIGUE & EXHAUSTION TISSUE SALT IS USED FOR

Combin Fatigue & Exhaustion Tissue Salt is a combination of the vital tissue salts which are traditionally used to help support nervous system functioning to help relieve mental, emotional and physical fatigue and exhaustion.

3. BEFORE YOU TAKE COMBIN FATIGUE & EXHAUSTION TISSUE SALT

Do not take Combin Fatigue & Exhaustion Tissue Salt

- If you are hypersensitive (allergic) or intolerant to the active or any of the other ingredients in Combin Fatigue & Exhaustion Tissue Salt.

Take special care with Combin Fatigue & Exhaustion Tissue Salt:

- If you experience an allergic reaction after taking Combin Fatigue & Exhaustion Tissue Salt, discontinue use and consult your healthcare practitioner.
- If you have any implants or foreign objects in your body, you should use Combin Fatigue & Exhaustion Tissue Salt with care as it may start to push these objects out of the body.
- If you want to substitute existing medical treatment, please consult your doctor or healthcare practitioner before doing so.

Taking Combin Fatigue & Exhaustion Tissue Salt with food and drink

Do not take Combin Fatigue & Exhaustion Tissue Salt within half an hour of strong coffee, chocolate, camphor or aromatic substances.

Pregnancy and breastfeeding

Biochemic tissue salts have traditionally been used during pregnancy and breastfeeding. It is recommended that if you are pregnant or breastfeeding, that you consult your healthcare practitioner for advice before taking any medicine.

Driving and using machinery

Combin Fatigue & Exhaustion Tissue Salt does not interfere with your ability to drive or use machinery.

Important information about some of the ingredients

Combin Fatigue & Exhaustion Tissue Salt contains lactose. Patients with the rare hereditary conditions of lactose or galactose intolerance should not take Combin Fatigue & Exhaustion Tissue Salt. Lactose may have an effect on the control of your blood sugar if you have diabetes mellitus.

Using other medicines with Combin Fatigue & Exhaustion Tissue Salt

Always tell your healthcare practitioner if you are taking other medicines. (This includes complementary or traditional medicines.) Combin Fatigue & Exhaustion Tissue Salt is not known to interact with other medicines.

4. HOW TO TAKE COMBIN FATIGUE & EXHAUSTION TISSUE SALT

Do not share medicines prescribed for you with any other person. Always check with your pharmacist or healthcare practitioner if you are unsure how to take this medicine. The tablets should be sucked or chewed so that they dissolve in the mouth. As absorption takes place through the mucous membrane of the mouth, it is desirable to hold the medicine in the mouth, preferably under the tongue, for a short time. For small children, the tablets can be dissolved in a little water and given as a liquid. The mouth should be free of other strong tastes (e.g. toothpaste, peppermint, etc.) when taking the medicine.

The usual dosage is:

Adults and children : 1 tablet 3 times daily. In acute conditions, 1 tablet may be taken every 15 - 30 minutes. Treatment may be continued for as long as necessary and may be stopped at any time when symptoms are no longer present.

If you take more Combin Fatigue & Exhaustion Tissue Salt than you should

There are no reported symptoms for an overdose of Combin Fatigue & Exhaustion Tissue Salt. If a side effect is experienced following an overdose, consult your healthcare practitioner or pharmacist.

If you forget to take a dose of Combin Fatigue & Exhaustion Tissue Salt

Do not take a double dose to make up for a missed dose of Combin Fatigue & Exhaustion Tissue Salt.

5. POSSIBLE SIDE EFFECTS

There are no reported side effects for Combin Fatigue & Exhaustion Tissue Salt. Should your general health worsen or if you experience any untoward effects while taking this medicine, please consult your healthcare practitioner or pharmacist for advice.

6. STORING AND DISPOSING OF COMBIN FATIGUE & EXHAUSTION TISSUE SALT

Store at or below 25 °C in a cool, dry place protected from light and moisture. Keep the container tightly closed. Do not store in a bathroom. Store all medicines out of the reach of children. Return all un-used medicines to your pharmacist.
